NEORS Green Lake Dredging, Shaker Hts., OH (Belt Filter Press)

WPCS Step Feed Phase I, Akron, OH (Asbestos)

Battery Park, Cleveland, OH
(Removal/Disposal of Contaminated/Hazardous Waste)

Fuel Terminal, Cleveland, OH (In-Situ Remediation)

Case Histories

SITE REMEDIATION AND EARTH RETENTION, FLATS EAST DEVELOPMENT, LLC

Cleveland, OH

\$3M CORF funded contract for the Flats East Bank redevelopment. Included excavation and disposal of petroleum impacted soils (including MGP), removal of foundations, and installation of an 18,000 SF earth retention system with tie-backs.

STEELYARD COMMONS

Cleveland, OH

Over \$10M contract for above- and below- grade demolition, contaminated soil removal, site preparation, and grading of former 120+ acre LTV Steel Brownfield site.

GARDEN STREET REMEDIATION

Elyria, OH

Ground water treatment, removal of 10,000 CY of concrete, excavation and removal of 8,100 CY of PCS dirt. The concrete was crushed and utilized as backfill on site. As part of this contract, we also mitigated the groundwater contamination using injection of a Regenesis product.

Performed work with PCS, PCBs, Lead, Arsenic, Benzene, Flyash, VOC's, Asbestos

Over 50 Years of Environmental Remediation Projects

4 Superfund Projects

Over a Dozen CORF Projects

On-Site Water Treatment and Groundwater Remediation

Successfully Obtained 19 NFA743 on a VAP Site - becoming its Property Owner (Cincinnati Location)
